

I Sea I Care - Marine Ambassador Program

On Thursday the 18th of November a small group of grade 5 & 6 students attended an excursion as representatives of the Marine Ambassador Program for Silverton Primary School.

Students met with and learnt from a variety of local council members, park services personnel and environmental leaders of the Crib Point Area.

They enjoyed engaging in discussions about protecting our local environment and the importance of preserving land for our native animals. During our bushwalk we had the chance to spot native wildlife and their habitats, dens, nests and hollows. Student also tried different edible native plants, leaves and berries. It was an exciting and inspiring day.
